

FOR IMMEDIATE RELEASE

Letter to the Editor from Leann Sullivan
October 31, 2008

The REHAB Programs, Inc. Preschool would like to express our sincere appreciation to the Wappingers School District. Our children paraded in costume through their administrative office and all the staff, also in costume, handed out candy and snacks to each child. We also accepted an invitation from the Orchard View School, located upstairs from our new Preschool location, to visit their students on Halloween. The students were amazing with the children, handing out their own snacks and goodies to each child. In September, REHAB Programs Preschool made its new home in the building shared with Wappingers School District and Orchard View School. It will also soon be the new home of a second location for REHAB Program's Medical Rehabilitation Clinic. We were overwhelmed with our new 'neighbor's' kindness and it was truly rewarding for all parties involved. They definitely had a positive impact on the staff (and parents that came), making it their most memorable day yet!!
